Testimonial

I stated at the end of April with no money to stake pools. Received \$2.00 for registering and validating my email, used the \$2.00 plus login commissions at the beginning of May to stake pools 1 and 2. Started free advertising campaign on traffic exchanges (a traffic exchange is where you surf or view other peoples websites for around 10 seconds then view the next website and keep doing that to receive visitors to your website, the more sites you view the more visitors you get to your website) this is free advertising. I received commissions for logging in and reading emails plus commissions for referring people through traffic exchanges at the end of May equal to \$100.00 just enough to stake pools 1-6 the 3rd of June. I never invested a penny this is money earned, I referred 14 people to We Share Abundance by June 3rd i expect to make at least \$150.00 by the first of July and refer a total of 25 people by then, if i can do this with 0 out of pocket expense in 3 months ten anyone can do it. God Bless and give you abundance.
