I started the 10th April 2020, was bit slap-dash with my login. But I soon realised that this program was accumulating funds. As soon as I had the money I staked all the pools. That was on the 24th April. Plus I won a small lottery prize my first month. In the May payments I earned \$155 + \$50 from a pool 5 lottery. Total \$205. In my first 2 payment periods I earned back \$239.47 And that's from logging in each day. Right now I am re-staking my pools from my own pocket because I want to keep adding to my coin collection. I'm punting on the value of the WESA Token to keep rising. And it's happening. Don't let this golden op pass you by. Join us and stake as far your budget will let you. By year's end you wont be sorry.
